

WHAT WE DO

ennVee TechnoGroup is a Services and Application Management services firm that provides end-to-end IT services and business solutions to clients in United States, Canada, and Asia.

We believe in providing ERP solutions that foster business transformation and help clients conquer business objectives. Our goal is to provide IT with the skills, tools, and strategies needed to scale and innovate.

Since 2003, we have delivered Oracle Applications based solutions across North America supporting both local and international firms. Our focus remains on providing the right solution tailored to each of our clients' unique business requirements. As an Oracle Gold Partner, we are committed to delivering the right Oracle EBS application and technology solutions to meet your company's current and growing needs.

Our focus on continual innovation and global collaboration, coupled with our commitment to quality, has allowed our global workforce to design and develop cost-effective software and support solutions for a wide array of industry verticals.

We have created powerful content delivery environments and customer specific platforms with a commitment to delivering high quality services. Our combined technical and industry experience enables us to bring a broader perspective to risk identification and improvement opportunities.

RISK SHARING AND REWARDS

The most rewards are reaped when an architectural approach is taken with each client. We look at the business side of the organization and fully understand how technologies are used, what they touch and how the company can best leverage them.

SEASONED, NOT BURNT LEADERSHIP

ennVee's founding partners have over 45 years of cumulative industry experience. Each partner has implemented a variety of ERP offerings and all have held senior management positions with highly respected firms such as Oracle, SAP, Whittman-Hart and march FIRST. Familiarity with these firms and exposure to their implementation approaches and methodologies, coupled with a tradition of successful full-suite ERP implementations, leaves ennVee well prepared for the challenges of growing a consulting practice and providing excellence in the delivery of enterprise solutions.
